SUMMARY

Full Stack Developer with over 3+ years of expertise in modern web technologies, specializing in React ecosystems and robust backend solutions using Node.js. Experienced in building scalable web and mobile applications with React Native, and integrating blockchain functionality into production applications.

EDUCATION

B.Tech in Computer Science and Engineering
MGM's College of Engineering, Nanded (2020 - 2024)

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, Tailwind CSS
- **Backend:** Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs
- **Tools:** Git, Docker, AWS, CI/CD, Postman
- **Testing:** Mocha, Chai, Selenium
- **Blockchain (optional):** Solidity, Ethereum, Hardhat

EXPERIENCE

Full Stack Developer Intern — Code Alpha (Remote)
January 2022 - February 2022
- Engineered RESTful APIs using Node.js/Express.js, implementing industry-standard security practices.
- Orchestrated frontend-backend integration, improving application response time by 30%.

FEATURED PROJECTS

Web3.0 Social Media DApp   **(** *December 2024* **)**

- Built a social media platform using React, MongoDB, and Solidity with AI integration.
- Implemented smart contracts for decentralized content management and authentication.

Blockchain E-vault System   **(** *August 2023* **)**

- Developed a secure storage solution using IPFS and Ethereum smart contracts.
- Optimized the frontend with Vite and Tailwind CSS, achieving 40% faster load times.

IRCTC Railway Management System   **(** *June 2023* **)**

- Led development of a full-stack solution using MERN stack with real-time monitoring.
- Implemented JWT authentication and role-based access control.

LEADERSHIP

- Mentored junior developers in MERN stack development and best practices.
- Secured top positions in web development hackathons.
- Led development teams, ensuring successful project delivery through effective communication.
